SOLAR ENERGY SUSTAINABLE AND INEXHAUSTIBLE

The power with which the sun propels our world and provides us humans with limitless energy is fascinating. At Luxor Solar, we have made it our mission to ensure that this inexhaustible source of energy is permanently available by producing premium solar modules.

Inspired and motivated by the grand idea of solar energy, at Luxor Solar we have had high-quality brand modules manufactured by long-standing and highly specialised manufacturing partners since 2007. We know the requirements of the market, customer wishes and trends. They form the basis for the development and production of solar modules with the highest standards of quality, durability and efficiency – for which our company has received several awards.

Luxor Solar stands for over 16 years of expertise in the development and production of high-performance premium photovoltaic modules in Asia and Europe. With an annual production capacity of 6.8 GWp, forward-looking product strategies and installations in over 85 countries, the Stuttgart-based company is one of the world's established module manufacturers.

A pragmatic approach to doing business, a self-determined strategic orientation for the long term and excellent products are the basis for our success. The ISO certification documents our quality standards. Independent awards confirm our work.

Luxor Solar Facts & Figures

2007

- + Founding of Luxor Solar GmbH
- + Headquarters in Stuttgart

2012

- + Founding of Luxor Solar K.K. (Tokyo, Japan)

2016

- + Founding of Luxor Solar LLC (California, USA)

- + EUPD TOP BRAND PV modules since 2018
- + EUPD SolarProsumerAward® 2023 & 2024
- + kununu Top Company 2023 & 2024
- + Production capacity: 6.8 GWp
- + Production locations: Europe, Asia
- + German guarantor
- + Regular quality controls by independent institutes
- + Very low complaint rate: 0.003 %
- + Full ISO certification:
ISO 9001, ISO 14001, ISO 45001

- + IEC61215, type certification
- + IEC61730, safety certification
- + IEC62716:2013 Ammonia resistance
- + IEC62804-1:2015 PID resistance
- + IEC61701:2011 Salt spray resistance
- + IEC60068-2-68 Sandstorm resistance
- + Country-specific listings: CEC, JET, JIS, MCS, UL
- + Registration No. at the ear foundation: DE27826757

RELIABILITY QUALITY PARTNERSHIP

Award-winning business. Top Company 2024

Reliability, quality and partnership are the pillars of the company. This is what we have stood for since 2007. For our customers from the project business, trade and crafts, we are a reliable and consistent partner who responds flexibly to individual customer wishes. We attach great importance to the personal relationship with our customers. Acting in partnership forms the basis for long-term cooperation. Our triad of values is reflected externally and internally in our everyday life.

The Luxor Solar team has many years of experience and, together with creativity, delivers a feeling for trends, stamina and a high degree of faithful implementation. We enjoy our work and always set high standards for conception, advice, execution and handling.

We are very pleased about the Top Company 2024 award. We thus offer prospects in an industry of the future as well as top jobs, signed and sealed.

3 GOOD REASONS FOR LUXOR SOLAR MODULES

Award-winning products. Luxor Solar stands for quality, efficiency and durability with its premium products.

Luxor Solar produces a flexible range of modules for numerous applications. From small stand-alone modules to a variety of rooftop modules (glass-glass, bifacial, full black, smart, NON-reflect) to economically optimised project modules or individually manufactured special modules. We cover all needs from A to Z.

How well a solar module works is demonstrated not only on the roof, but already during manufacturing. Our strict quality controls are based on specially developed manufacturing guidelines, into which our many years of experience and entire expertise are continuously incorporated. This results in a quality that we at Luxor Solar vouch for with the comprehensive guarantee of a German company.

Powerful

+ Performance increase from 0-6.49 Wp above the nominal rating (according to STC)

Luxor Solar Guarantee

+ 30/15 years product guarantee¹
+ 30/25 years linear performance guarantee¹

German company

+ Warranty: As the German guarantor, Luxor will handle the warranty arrangements as required.
